TRUTH THE FULL STORY

Truth, being the statement of fact, is what **Alethinos Investigations** strives to obtain.

Alethinos investigations emphasizes the integrity of what is true, down to its inner make-up. True, inside and out. It is veracious and sincere. These are the character qualities they both desire in every investigation.

INSURANCE INVESTIGATIONS

A quality investigation is necessary to ensure each claim gets the maximum return on their investment and the greatest yield from the dollars spent on claims examination.

OUR SERVICE

LINK ANALYSIS

Uncover Insights and Hidden Relationships

Providing information regarding potential risks associated with prospective clients, witnesses, and jurors. Alethinos Investigations helps firms build better case strategy.

Defense

Link Analysis identifies common data points that link individuals and businesses. This data provides legal teams assistance in identifying and understanding hidden relationships.

SURVEILLANCE

Surveillance investigations should be initiated when you have good reason to believe the worker is misrepresenting his | her disability.

STATEMENTS

A compensability statement that is properly and completely done should, in the event of a fraudulent claim, provide all of the necessary information needed to deny and perhaps even prosecute the offender.
